The new Fotospeed Signature range brings together five of the world's leading photographers with four of Fotospeed's most popular and award winning fine art inkjet papers. Smooth Cotton 300, Natural Soft Textured Bright White 315, Platinum Baryta 300 and Platinum Etching 285.

Joe Cornish – Smooth Cotton 300 Faim to crystallise the enclessly varied light, colours and texture of nature in my landscape photographs. At the end of a chain of photographic processes, the print is the culmination and fulfiment, of that effort, and the paper is critical to the success of the print. Fotospeed's Smooth Cotton 300 is my paper of choice.

Trevor & Faye Yerbury - Natural Soft Textured Bright White 315

As traditional darkroom printers it has taken us many years to discover the right paper for our images that will capture and hold all of the shadow and highlight detail we domand. Natural Soft Textured Bright White is our preferred paper.

John Swannell – Platinum Baryta 300 As a photographer Laim to capture the spirit of my subject. While technology has changed over the years the one thing Licel remains the same is the importance of the printed image. Folospeed's Platinum Baryta bridges the gap between the traditional darkroom papers and todays digital media. I find that whilst it is known for reproducing suporb B&W images it should never be under estimated as a paper for colour work.

Charlie Waite – Platinum Etching 285 Landscape photography is much about discovery and photographens can only fully relish the rewards of their efforts when seen in the form of a print. The paper used for that print has to be as carefully considered as the image made. Discovering Fotospeed's Platinum Etching 285 has been a revelation to me and has proved a vital tool in my ongoing quest to match pre-visualisation with end result.
