# CES: Entries/Admin System

This has been published before but you may have missed it.

The PAGB Entries/Admin system is commonly referred to as the Central Entries System:

Mark Buckley-Sharp CPAGB HonPAGB ARPS (Hon)

**A crisis creates opportunity and change: a realisation that, if cannot be done the same way, then other ways must be found. In recent times, on-line conference software such as Zoom have opened the opportunity for Clubs to invite speakers from distances which were previously impossible. Likewise, on-line delivery of information and services has become much more important. The PAGB is supporting Federations and Clubs in these changes using its Central Entries System (CES).**

From small beginnings as an entry system for the Inter-Federation competition, the CES has grown to support entries for all PAGB events.

**From small beginnings as an entry system for the Inter-Federation competition, the CES has grown to support entries for all PAGB events, including our Awards for Photographic Merit, and also supports service delivery direct to Federations, Clubs and their members. To do this required a change of philosophy from a system with accounts for roles such as ‘competition secretary’, to one with accounts for individuals in their own right.**

**The CES holds information such as contact details and Club and Federation memberships. Since anyone in the world can create an account, account holders must be specifically authorised to access only the information they require for whatever status they have as a Club member, a Club officer or a Federation officer. We call these ‘approvals’, which must be requested, independently verified, and then managed over time.**

**The PAGB has produced a printed Handbook, once every two years, which has been delivered as one copy per Club. The Handbook contains a mix of content, such as contact details and procedures, but the majority of the content is the lists of approved judges and lecturers. This made the Handbook vital to programme secretaries. However, one copy can only be used by one person. Who decides who that will be? Does anyone relevant on the Club committee know who has the copy, or even know that such a copy exists? What if it is lost? These are issues inherent in any paper-based system, quite apart from the time and effort of collation and the costs of production and distribution.**

**It is Federations who put the effort and resource into recruitment and training of speakers for Clubs, and who approve speakers for their own lists and for the lists in the PAGB Handbook. Following a detailed design and consultation, Federations agreed that the PAGB should create an on-line speakers register which retains Federation control over speaker approvals. It is a fine example of the PAGB role to support Federations in commonly defined aims. Judge records have been entered to the new register and the addition of lecture records is ongoing. So far the CES has over 600 judges and about 1000 lectures. More will follow.**

**With this on-line speakers register it is now possible for an approved CES account holder to access details of speakers without searching for the handbook, or wondering whether the information is still accurate.**

**So, what does ‘approved’ mean in this context? Just as the Handbook was available for use by any member of a Club committee or a Federation committee, the accounts in CES which can access the speakers’ contact information are those approved as a Club or Federation officer (committee member). Now that the CES has evolved into a service delivery system, there is a real need for Club committee members to have a CES account with Club officer approval so that they can access services for their Club. There are still many PAGB affiliated Clubs which have no officers recorded in the CES. Those Clubs have effectively excluded themselves excluded from PAGB provided services until they have at least one account approved as an officer.**
